

NEW FARMING CONNECT FUNDING FOR TRAINING! Starts 24th November 2008!

In order to access **50% funding** you must **apply** for funding and have it **approved** before training course starts.

BUT FIRST – You must register for Farming Connect.
This is Farming Connect 2, so don't think that just because you were in it before, it'll be ok – it won't!

This is the lengthiest part of the process, so we strongly recommend you register **NOW** even if you don't have any imminent training needs.

RING Farming Connect 08456 000813

You will need Holding Number, CRN and give details of acreage and stocking. They will then send you a form – which you sign and return – then you are registered!

Need Training?

Eligibility for funding is available to **immediate** family (granddad, son, daughter-in-law etc) or to **employees** of the business.

You fill in a SKILLS DEVELOPMENT APPLICATION FORM – this needs to be signed by the **Trainee** and also the **Business Principal** (which can be the same!) This form will come out in your registration pack – if you need more, **RING 01267 225300**.

You send it in and once approved you are sent a claim form. You can now attend the course, and then you send back the completed claim form with your **receipted invoice and copy of your certificate**. Welsh Assembly Government will pay you by BACS.
